

Recycling Market Development Zone Tax Credit

A taxpayer may not claim this credit or carry forward into a year that the taxpayer has claimed the targeted business income tax credit or the enterprise zone credit. Taxpayers claiming this credit must complete this form and attach it to their individual income tax, corporate franchise tax or fiduciary tax return. The Department of Community and Economic Development must sign or certify (see address on back) if you are seeking credit for machinery or equipment. See the reverse side of this form for detailed instructions.

Line 2 Amount of tax credit carried forward - second year	2 \$	
Line 3 Amount of tax credit carried forward - third year	3 \$	

A taxpayer may not claim this credit or carry forward into a year that the taxpayer has claimed the targeted business income tax credit or the enterprise zone credit.

The Utah Legislature authorized a nonrefundable tax credit to individual income tax, corporate franchise tax or fiduciary tax in a recycling market development zone, as defined in Utah Code Section 9-2-1602. The credit consists of: (a) 5 percent of the purchase price paid during the taxable year for machinery and equipment used directly in commercial composting, or manufacturing facilities or plant units that manufacture recycled items or reduce or reuse postconsumer waste material; and (b) 20 percent of net expenditures, up to a maximum credit of \$2,000 to third parties for rent, wages, supplies, tools, test inventory, and utilities made by the taxpayer for establishing and operating recycling or composting technology in Utah.

PART A

Enter name and address information of taxpayer. PART A is where the Department of Community and Economic Development will sign, authorizing this credit.

PART B

List any machinery or equipment purchased that is used directly in commercial composting or in manufacturing facilities or plant units that manufacture, process, compound or produce recycled items for sale or reduce or reuse post consumer waste material. Enter the purchase price for the machinery or equipment in the appropriate column. Add all purchases and multiply the total purchases by .05. This represents the total amount that can be used as a credit for machinery and equipment.

PART C

List expenditures for rent, wages, supplies, tools, test inventory, and utilities and the amount of the expenditure in the appropriate column. Total all expenditures listed in PART C and multiply the total by .20 (20%). If the amount is greater than \$2,000, only enter \$2,000. This credit cannot be taken in a taxable year in which the enterprise zone credit is claimed or carried forward or the targeted business income tax is claimed; enter zero if either credit is claimed or carried forward.

PART D

Add together the "**Total credit allowed**" from PARTS B and C. Multiply the amount of your Utah income tax by .40 (40%). Non or part-year residents must use the apportioned Utah tax. Your Recycling Market Development Zone Tax Credit is the smaller of line 1 or line 2.

PART E

Taxpayers may carry forward for three years any of the unused total credit allowed in PART D, line 3, that is attributable to purchases of qualified machinery and equipment under PART B. Indicate the amounts you are carrying forward, along with the appropriate years, on lines 1 through 3 of PART E.

Carryforward recycling market development zone credits shall be applied against Utah individual income tax, corporate franchise tax or fiduciary tax due before the application of any recycling market development zone tax credits earned in the current year and on a first-earned, first-used basis.

This form must be completed and signed in PART A and attached to the initial Utah income tax return. If you carry forward this tax credit, you must attach a copy of this completed form, with the new carryforward amount, to your Utah tax return.

Taxpayers must keep copies of tax credit records for three years from the date the return is filed.
